Aarav Sharma

Backend Engineer | aarav.sharma@example.com | +91 98110 22334 | github.com/aaravsharma-dev | Noida, India

SUMMARY

Backend engineer with 4 years of experience building high-traffic REST APIs in Python. Designed services that handle 2M requests a day at a payments company.

EXPERIENCE

Senior Software Engineer, PayStream Technologies, Noida

Jul 2023 - Present

- Built and maintain 14 FastAPI microservices for merchant settlements, serving 2M requests/day with p95 latency under 120 ms
- Designed PostgreSQL schemas and tuned slow queries, cutting reconciliation time by 65%
- Introduced Redis caching and Celery workers for background jobs
- Containerised services with Docker and deployed them to AWS ECS; set up CI/CD with GitHub Actions
- Mentored 3 junior developers and led weekly code reviews

Software Engineer, Codecraft Labs, Gurugram

Jul 2022 - Jun 2023

- Developed Django REST Framework APIs for an e-commerce client with 40k daily users
- Wrote pytest suites that raised test coverage from 45% to 85%
- Migrated MySQL reporting tables to PostgreSQL with zero downtime

EDUCATION

B.Tech, Computer Science and Engineering, Delhi Technological University, 2022

SKILLS

Languages: Python, SQL, Bash

Frameworks: FastAPI, Django, Django REST Framework, Celery

Databases: PostgreSQL, MySQL, Redis

Cloud and DevOps: Docker, Kubernetes (basic), AWS (EC2, S3, ECS, RDS), GitHub Actions, Linux

Tools: Git, Postman, Jira

PROJECTS

fastapi-ratelimit: open-source token-bucket rate limiter middleware for FastAPI with a Redis backend (300+ GitHub stars)

CERTIFICATIONS

AWS Certified Developer - Associate (2024)
