SUMMARY

Data scientist with 4 years of experience in forecasting, NLP and applied machine learning for retail and e-commerce.

EXPERIENCE

Data Scientist, RetailIQ Analytics, Gurugram | Jun 2023 - Present

- Built demand-forecasting models (XGBoost, LightGBM) for 900 stores, reducing stock-outs by 18%
- Designed A/B tests and analysed them with hypothesis testing and regression analysis
- Built an NLP pipeline with Hugging Face transformers that classifies 50k customer reviews a month
- Prototyped an LLM-based RAG assistant for store managers using LangChain and a vector database
- Wrote complex SQL on PostgreSQL; built Tableau dashboards for leadership

Data Analyst, ShopEasy, Delhi | Jul 2022 - May 2023

- Python (pandas, NumPy) and SQL analysis of customer churn; built a logistic regression churn model with scikit-learn

EDUCATION

M.Sc. Statistics, University of Delhi, 2022

B.Sc. (Hons) Mathematics, University of Delhi, 2020

SKILLS

Python, pandas, NumPy, scikit-learn, XGBoost, TensorFlow, PyTorch (basic), NLP, Hugging Face, LLMs, RAG, SQL, PostgreSQL, Statistics, Tableau, Git, Docker (basic)
